My question is: Was the earth described in the Bible the earth as we know it, or was it the earth the scientists say all the planets came from? **WAR.** Morality and war (A Catholic bomber pilot explained his philosophy of warfare by saying that the obstacles to overcome in the winning of a war were: 1) the fighting men; 2) those supplying material to the fighting men; 3) civilian morale, that is, the nation's will to fight. He contended that the most vulnerable of these obstacles was the will to fight, and hence the war would be sooner brought to a successful conclusion by concentrating on breaking the civilian morale of the enemy. He contended further that the intention of bombing, either conventional or nuclear, was not the death of noncombatants—that was simply an unavoidable consequence; the intention was to break the enemy's will to fight.
